is making the KINDEST cut of all.

Hair Donation Event!!!

Berlin Twp. Schools and Pantene would like to invite you to make “the kindest cut of all”
at a hair donation event hosted by :

Dwight D. Eisenhower Middle School

What: Join us as we donate our ponytails to *Pantene Beautiful Lengths*[®] to help support women during the toughest fight of their lives. Local stylists will be here to help with the donation cut and give the donors a quick clean-up cut as well. Refreshments will be offered and there may even be a prize or two. Any adult may donate, provided that their hair meets the requirements (see below). Those under 18 years old who wish to donate must be accompanied by a parent or guardian and must have a signed permission slip.

Where: DDE Middle School

When: The event will be in the beginning of December 2016. This flyer is just to let you know the event is coming so you can grow your hair as long as possible. (*Hair must be a minimum of 8 inches from the ponytail.*) More details will follow, so look for future flyers for the exact date and time.

Why: All qualifying donated ponytails will be transformed into free, high-quality wigs for women undergoing cancer treatment. ~ Who knew a haircut could mean so much? ~

R.S.V.P.: Look for future flyers to find out how and by when to R.S.V.P..

Hair Donation Requirements:

To make the most durable, beautiful wigs possible, donated hair must be a minimum of eight (8) inches in length and have no more than a few strands of gray. Hair may be colored with vegetable dyes, rinses or semi-permanent dyes, but cannot have been bleached, permanently colored or chemically treated. If you can't or choose not to donate, please join us in a show of support for donors or make a monetary donation to Pantene Beautiful Lengths[®] in their honor.

Pantene Beautiful Lengths[®] is built upon a simple act of generosity: yours. And it is only through this simple but incredibly significant act that we are able to provide real-hair wigs for women who are suffering from hair loss due to cancer treatment.
